

ONTARIO ORDERING INFORMATION

Thank you for your interest in ordering Panorama NIPT for your patients

Panorama® is a simple, safe, and highly accurate non-invasive prenatal screen that provides >99% combined accuracy for trisomies 13, 18, 21, fetal sex and triploidy. Panorama™ analyzes fetal DNA that is circulating in the maternal blood and can be offered as early as 9 weeks of pregnancy. Results are available within 10 days.

Who qualifies for ON Ministry of Health (MOH) funded NIPT?

The MOH funds Panorama NIPT for women who meet the following criteria:

- A maternal multiple marker screening test (eg. eFTS/MSS/Quad etc.) positive for aneuploidy.
- Women of advanced maternal age defined as ≥ 40 years of age at expected time of delivery. In the context of in vitro fertilization, the maternal age is guided by the age of egg at retrieval (whether own egg or donor egg).
- Fetal nuchal translucency (NT) ≥ 3.5 mm.
- Previous pregnancy or child with Trisomy 21, 18, or 13.

MOH may also consider funding for the list of reasons provided in the Panorama Funded by MOHLTC CHECKLIST, which is attached. In order for a patient to have the cost of her NIPT covered (microdeletions are not currently covered), the physicians must fill out:

- LifeLabs Panorama **MOHLTC requisition**
- Panorama Funded by **MOHLTC CHECKLIST**

How to order Panorama NIPT

1. To order Panorama NIPT, there are two requisitions available for residents of Ontario. Choose EITHER the Private Pay OR MOHLTC Funded requisition. Please see above for criteria of MOH funded Panorama NIPT. Please ensure that **all** fields are filled out on the requisition to avoid processing delays.

****** For women meeting funding criteria - the MOH is very strict about this process and the blood cannot be drawn if the patient does not have both the LifeLabs Panorama MOH requisition AND the Panorama Funded by MOHTLC Checklist. Otherwise, the cost of the test is borne by the patient. ******

2. Check off only **ONE** of the following tests on the requisition (*with prices*):

Test	Private Pay Price	ON MOH Funded Price
Panorama Prenatal Test	\$550	no charge
Panorama Prenatal Test + 22q11.2 deletion	\$745	\$195
Panorama Prenatal Test + Microdeletion Extended Panel	\$795	\$245

3. Have the patient sign and date the consent portion at the bottom of the requisition

The patient can make an appointment by calling the LifeLabs Appointment Booking line at **1-877-849-3637** or online at **booking.lifelabs.com**. They must bring with them the following:

- Completed requisition (EITHER the Private Pay requisition or the MOH requisition, if eligible)
- If MOH funded, the patient must also bring the Panorama Funded by MOHTLC Checklist
- Requisition must be fully completed and signed by their physician
