

Ordering Guide

AUTHORIZED DISTRIBUTOR

Signatera™
Residual disease test (MRD)

Step 1

Purchase Signatera

(Choose either the *Initial Test* OR *Subsequent Test*, not both).

ON Residents: [Click here](#)

BC Residents: [Click here](#)

Rest of Canada

Contact our Genetics Helpline:

1-844-363-4357, press 0

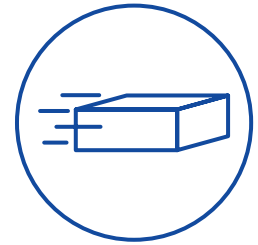

Step 2

Get your requisition

A requisition containing your information, along with the purchase receipt, will be emailed to you after you have purchased the test either online or via our Genetics Helpline.

Print and bring the requisition to your physician for completion and signature. They will need to provide their information each time you order either test, including the pathology lab information (Initial Test only) on this form.

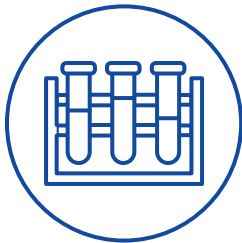

Step 3

Physician Receives your kit

We may call you to confirm the details of your physician's address and contact information.

A blood kit will automatically be shipped to **your physician**. Visit your physician to receive the kit when you complete and sign the requisition form with them.

Step 4

Blood Sample Collection

Get your blood sample collected at either a LifeLabs Patient Service Centre (ON/BC/SK) or the hospital clinic. If done at Lifelabs, please book an appointment at your convenience. Take the kit and signed requisition to this appointment.

If applicable, we recommend that you wait at least 2 weeks post-surgery to have your blood drawn.

Note: Your used kit and form will automatically be shipped to our central lab. Upon receiving the kit, the LifeLabs central lab will request the tissue on behalf of you and your healthcare provider. (Initial Test only)

Step 5

Obtain Results

Results from the *Initial Test* will be sent to your physician 4-6 weeks after the testing lab has received both tissue and blood kits.

Results from the *Subsequent Test* will be sent to your physician 1 - 2 weeks after the testing lab has received the blood kit.

Consult your physician to discuss results.

For any questions or concerns, contact our **Genetics Helpline at 1-844-363-4357**
